

DURABILITY CONSULTANTS

ENHANCING THE CAPABILITIES FOR THOSE
THAT BUILD WITH CONCRETE....

The Team at Durability Consultants is offering a full catalogue of concrete products, including the most advanced concrete joint reinforcement for heavy duty and long-lasting joint operation.

Plate "Diamond" Dowels
1/4", 3/8" and 3/4" plate thicknesses, with corresponding plastic injected molded speed sleeve. For 5" to 12" thick slabs.

Round Dowel; Plain, oxide primer and Epoxy.
DOT accepted with epoxy fused bonded systems pre-approved by the CRSI. Bond breaker too.

Straight Heavy-Duty Edges.
Fastened with Steaks into sub-base.

Plate "Diamond" Baskets
Same sizes practically laid out in basket form to your specified spacing for mid-point saw cuts.

Prefabricated Steel "Wave" Free Movement Joint System
Top only or Complete Sections, allow easy hard-wheeled movement.

Straight Heavy-Duty Edges.
Fastened on top of wooden header/form.

Have you visited **BoMetals.com**?

If you are a long-time buyer of BoMetals products, you might be surprised at a number of other solutions we offer. We have worked to make our site faster and easier for you to find the products you need. Try it out! Download product information, product specifications, or even view helpful videos that provide installation details for your team if they are new to one of our product lines.
